ARCHOS

ARCHOS 2

MP3 Player

The brand new ARCHOS 2 is full of surprises. It's an all-in-one affordable credit card sized device. With 8 GB or 16 GB* of disk space, lyrics display and photo viewing, it's the perfect music companion.

- Store and listen to up to 8,000 songs[1]
- Play MP3 and WMA music files

- Store thousands of photos
- View JPEG photos

- Brand new animated user interface
- Very intuitive, stylish and user-friendly

- High storage capacity (up to 16GB*) for such a tiny player
- Add even more capacity with your own Micro-SDHC cards

ARCHOS

Large inside, small outside

Music
The ARCHOS 2 will meet most music addicts' needs: a small, very reasonably priced device, featuring up to 16GB* of disk capacity to store up to 8,000 songs[1]. This means days of non-stop music. Additionally, the ARCHOS 2 hosts a Micro-SDHC card slot so that you can add more music or files.

Library
It's really easy to organize your music with the library settings. You can choose by artist, album or title. With the lyrics display capacity, you will rediscover the songs available on your player.
Since the ARCHOS 2 plays the most popular music formats (MP3 and WMA), you're covered. Just drag and drop files from your PC to the ARCHOS 2 using the standard USB 2.0 connection.

Photo
You can also clearly show and watch your pictures on the 1.8'' color screen. And it's also a great way to enjoy your music, text, and ID3 Tags displayed on the screen. And using it is truly friendly, with nice icons and animated transitions.

Audio Recorder
The ARCHOS 2 is equipped with a built-in microphone to let you record anything you want, instantly. From a phone number you cannot write down, to direction instructions if you don't have a GPS.
